

NOTICE FOR PG STUDENTS

It is to notify that the Team CCC would like to introduce our institute email service which has been migrated from Zimbra to G-Suite. Our Email service is now running on a more robust and high available G-Suite service, which is nothing but adding a layer on top of Gmail so that you can log in using our institute email ID in Gmail. Your old Zimbra account if existing is still active, but can be accessed only via the institute network. You can only view and access your old emails in Zimbra. We will keep your Zimbra account active for the next 6 months.

There is an institute-wide policy change regarding email to fit our email accounts in the context of G-Suite service. So your email IDs have been changed so that we can fit them into the G-Suite acceptable format. The details of your new accounts will be mailed by the CCC team shortly from **01-07-2020**. You will get an email to your personal email ID to activate your G-Suite account. The link will expire after 48 hours.

For any query and concern related to G-Suite email account, please drop one email to "nits_ccc_helpdesk@nits.ac.in" '**G-Suite Email Account for PG Students**' mentioning your scholar ID.

Thank You
Team CCC
